# Why is IR-4 So Important

- >40% of our daily consumption comes from minor/specialty crops.
- Basic Producers spend \$M on development. Focus on larger area crops. (Corn, Soybeans, etc.)
- Minor Crops: Over 1000+
- NIFA funded IR-4 partnering with USEPA developed incentives for producers:
  - Wave registration fees
  - Develop residue data
  - Extend data protection for active.

# IR-4 Partnership

- The IR-4 Project is an example of how government and NGOs can work closely with their stakeholders to assure the goals and programs stay current and meet stakeholders' objectives.
- IR-4 sees stakeholders as equals.
- Not just an advisory committee.
  - Position on Board of Directors
  - Weekly communication
  - Involved in hiring and evaluations

# PURPOSE OF THE COMMODITY LIAISON COMMITTEE (CLC)

(Pulled from the CLC Charter)

- The CLC is the link between IR-4 and those who grow specialty food and ornamental commodities or their representatives.
- Therefore, the primary purpose of the CLC is to provide guidance and advice to the IR-4
   Project Management Committee in ways in which the program can best serve the needs of producers of specialty crops.
- The CLC serves an important role in communicating the mission of the IR-4 Project to the agricultural community and provides visibility at the grower level.
- The CLC also supports federal funding initiatives for the IR-4 Project and advocates for funding to maintain viable food and ornamentals research and registration programs.

  - These KEY IR-4 programs have had similar reductions.

### WHITE HOUSE BUDGET

- Several of us from the Commodity Liaison Committee met with OMB to request \$20 Million for IR-4 in the President's Budget.
- We were pleased to see the budget released on May 28 call for \$20 M for IR-4 with this explanation: "An \$8 million increase in funding for Minor Crop Pest Management (IR-4) will affect a number of funded pesticide data projects per year as well as additional biopesticide and organic projects. Increased funding will also allow the IR-4 programs harmonization activities with America's key trading allies."
