## IR-4 FIELD DATA BOOK

### PART 1. GOOD LABORATORY PRACTICE COMPLIANCE INFORMATION

**STANDARD OPERATING PROCEDURES:** Insert a verified true copy of the SOP index(s) after this page.

#### GOOD LABORATORY PRACTICE STATEMENT

*INSTRUCTIONS: The Field Research Director should print his/her name, sign, and date the Good Laboratory Practice statement. Additionally, the GLP compliance status of data in this study should be documented.*

I, \_\_\_\_\_, served as "Field Research Director" for this research trial. I have reviewed the appropriate raw data and I attest that the data accurately reflect the conduct of and the observations made during this trial. All activities associated with this trial were conducted according to *Chapter 40, Code of Federal Regulations, Part 160* or OECD Good Laboratory Practices, except for those noted below (check appropriate GLP status column):

| GLP Compliant                                                                                                                                                            |    |                 | DATA CATEGORY                                                                                                                                                                                                         |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| YES                                                                                                                                                                      | NO | NA <sup>1</sup> | (Field personnel should not line out blank cells on this page.)                                                                                                                                                       |
|                                                                                                                                                                          | X  |                 | <u>Weather, irrigation, and soil characterization data</u> are not required by the protocol to be compliant with GLP's and are noted as non-compliant in the final report for the study.                              |
|                                                                                                                                                                          |    |                 | TEST SITE HISTORY (chemical applications prior to the trial year) (FDB Part 5)                                                                                                                                        |
|                                                                                                                                                                          |    |                 | CULTURAL PRACTICES (dating back to harvest of the previous crop),<br>MAINTENANCE FERTILIZERS AND PESTICIDES (current trial year) (FDB Part 5)                                                                         |
| In U.S. trials, GLP-compliant equipment must comply with 40 CFR 160, Subpart D, which includes 160.81 (b) (11). Adjuvants in U.S. trials must comply with 40 CFR 160.83. |    |                 |                                                                                                                                                                                                                       |
|                                                                                                                                                                          |    |                 | <b>ADJUVANT DATA (See Part 4D for specific items of non-compliance with GLPs)<br/>Check NO here if one or more items are non-GLP compliant.</b>                                                                       |
|                                                                                                                                                                          |    |                 | ENVIRONMENTAL MONITORING DEVICES for test substance storage (FDB Part 4)                                                                                                                                              |
|                                                                                                                                                                          |    |                 | GLOBAL POSITIONING DEVICE used to determine plot location (FDB Part 5)                                                                                                                                                |
|                                                                                                                                                                          |    |                 | FLOW METERS and similar SPRAYER OUTPUT CALIBRATION EQUIPMENT used to <u>measure</u> water ( <b>excluding</b> marked, calibrated beakers, graduated cylinders or flasks suitable for scientific research) (FDB Part 6) |
|                                                                                                                                                                          |    |                 | pH METER or STRIP for measuring the acidity of the carrier (water) (FDB Part 6)                                                                                                                                       |
|                                                                                                                                                                          |    |                 | RESIDUE SAMPLE WEIGHING EQUIPMENT (FDB Part 7)                                                                                                                                                                        |
|                                                                                                                                                                          |    |                 | ENVIRONMENTAL MONITORING DEVICES for sample storage (FDB Part 7)                                                                                                                                                      |
